FIBER SPOOLER RANGE
Fiber cable management

APPLICATIONS

The MMC fiber spoolers offer an accurate way to organize the cable management inside any fiber panels/boxes. They are designed to protect and respect the bending radius of the fibers.
It suits perfectly 900µm, 2mm or 3mm cables

Part number : 48MKS
Complete cable management kit

Kit with :
• 2x fiber spooler bases with their trays
• 6x cable ties 100*26mm
• 1x cable gland PG13.5
• 2x black elastics
• 4x M2 srews and nuts
• 4x removable self-adhesive tapes

Part number : 48SPOOLERKIT
Complete spooler kit with 2 bases and 2 trays

Kit with :
• 2x fiber spooler bases with their trays
• 2x black elastics
• 4x M2 srews and nuts
• 4x removable self-adhesive tapes

Part number : 48SPOOLERTRAY
Kit of 2 additional trays
To be used with 48MKS or 48SPOOLERKIT

Kit with :
• 2x fiber spooler trays:

FIBER SPOOLER RANGE
Fiber cable management

STUDY CASE

According to the need, the fiber spoolers can be used in different ways. As it is separable ans stackable, it can be adjusted exactly in the required conditions

Classical use as a entire spooler to have a complete circle inside the panel or the wall box

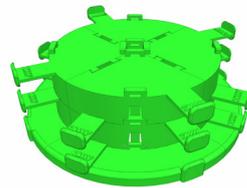

Fully stackable, the trays can increase the management capacity with higher rings

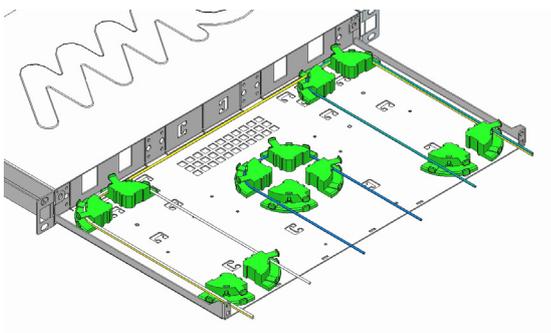

P/N : 48SPOOLERKIT   P/N : 48SPOOLERTRAY

The base and the trays are complete separable and permits flexible management with 4 independant parts

FIBER SPOOLER RANGE
Fiber cable management

GENERAL CHARACTERISTICS

Stackable and separable fiber spooler made of 3 different kits

The base and the spooler trays can be spread into 4 parts

4 holes to screw the spooler base on the drawer of the fiber panel.

4 removable self-adhesive tapes allow an alternative temporary integration into the panel

Each of the 4 parts is also separable and stackable

PHYSICAL PROPERTIES

Base dimension : Ø 80mm

Tray dimension : Ø 60mm

Material : Green ABS plastic

Bending radius: 30mm

STANDARDS

Designed and tested to comply with the requirements of :

- TIA/EIA 604-3
- IEC
- CECC
- Telcordia (Bellcore)

PART NUMBER

Part number	Description	Packing
48MKS	Complete cable managment kit with 2 fiber spoolers	Unit
48SPOOLERKIT	Complete fiber spooler kit with 2 bases and 2 trays	Unit
48SPOOLERTRAY	Additional kit of 2 fiber spooler trays for higher capacity	Unit
